NEGATIVE DECLARATION
OF ENVIRONMENTAL SIGNIFICANCE
No. 2282

The Yolo County Planning Commission has reviewed all available information on the environmental effect of the project described as request for a change of zoning from Agricultural General (A-1) to Residential One-Family (R-1) for approximately 2.02 acres of land located on the west side of Esperanza Park south of Esparto.
Assessor's Parcel No. 49-150-25
Zone File #2802

The Planning Commission has determined that:

1. The project described is one that would ordinarily be expected to have a significant effect on the environment, and

2. The project will have no significant adverse effect on the environment due to circumstances peculiar to the specific project.

An Environmental Impact Report will not be required.

Said determination was made at a Public Hearing held on September 21, 1977 in compliance with the California Environmental Quality Act and Title 10 of the Yolo County Code. Appeals from this determination may be made within fifteen (15) days of said action by filing a letter of appeal with the Clerk of the Board of Supervisors as prescribed for appeals from decisions of the Board of Zoning Adjustment.

Negative Declaration
Zone File #2802
Karlstad/B & B Homes, Applicant
Assessor's Parcel No. 49-150-25, a portion of
Hearing Date - September 21, 1977

The applicant proposes to change the zoning from A-1 to R-1 on approximately 2 acres located at the west end of Redwing and Robin Streets on the south side of the community of Esparto, in order to facilitate the expansion of the Experanza Park Subdivision.

The Esparto General Plan currently designates the area in question RL (Low Density Residential). Although this proposal under certain circumstances could have a significant adverse environmental impact, staff believes a draft ND to be appropriate for the following reasons:

1. The proposed zone change is in conformity with the General Plan.

2. The proposed zone change will facilitate the completion of a partially completed subdivision.

18. PROBLEM STATEMENT

The battering of women is one of the most pervasive crimes in our society today. Battering, often termed spousal abuse or domestic violence, can be defined as physical assault and emotional abuse between married partners or cohabiting, sexual partners who are not married. The battering cycle, identified by Lenore Walker in research with battered women, consists of three phases, the tension building phase, the rage state or explosion phase, and the calm loving phase.[1] The tension building phase is characterized by small outbursts and a large amount of verbal abuse. The explosion of rage follows and culminates in battering. The loving calm which follows adds complexity to the cycle as it is here that the woman's victimization becomes complete. During this time, the batterer may shower presents on his victim, promise to seek professional help or blame alcohol and stress for his outburst. He may place responsibility on the woman for helping him to change, obtaining her acknowledgement that she is partly responsible for his violence.

Obstacles to leaving the violent relationship given by battered women tend to follow common themes. Economic concerns are major obstacles. Many battered women have no specific skills which prepare them for employment. And, there may be the additional financial consideration of children. This lack of financial independence influences the decision to remain in the relationship.

A strong sense of family, especially when children are involved, is another reason battered women feel they should remain at home. Guilt about the failure of the relationship, societal and family pressure to "work things out" and fear that the batterer will harm relatives or follow the woman if she leaves are all issues discussed by battered women. Another common issue is the emotional dependency which is a characteristic of the battering relationship. The physical and verbal abuse create or add to a sense of low self esteem in battered women. This poor self image, then, becomes itself an obstacle to effecting any life style changes.

The dimensions of the problem of battering can not be easily determined. No official category for spouse assault is used in local police records, court rosters, or emergency room files. Therefore, no retrievable system of statistical information is available to gage the prevalence of spousal

[1] Lenore Walker, The Battered Woman. New York: Harper and Row, 1979.

assault. Karen Durbin, in "Wife Beating", states, "Legal experts think that wife-beating is one of the most under-reported crimes in the country .... A conservative estimate puts the number of battered wives nationwide at well over a million".[2] A U.S. Labor Department report states that 40% of all American marriages will experience at least one violent episode, 15 to 20% will experience violence periodically and at least 5% will involve chronic violence.[3] The Family Court of New York State logged 14,167 wife abuse complaints during the judicial year 1972-73.[4] The problem is not solely an urban one. A police chief in a Michigan town of 6,000 residents indicated that domestic disturbance calls are received every day.[5] These figures, though lacking analytical depth, indicate that domestic violence is a social problem of significant proportion.

Further, the consequences of spousal assault are often severe. FBI Uniform Crime Reports for 1975 state that 25% of the homicides nationwide were intrafamilial and over half of these were spousal murders.[6] Police intervension may not be enough to reduce escalating violence. A study conducted by the Kansas City Police Department found that in 30% of the homicides or aggravated assault cases during 1972-73, the police had been called to the home once before; in close to 50% of those cases, the police had been called five times or more.[7] The danger to the officers who respond to domestic disturbances is life threatening. The FBI reported in 1974 that one of five peace officers who were killed in the line of duty died trying to settle a domestic dispute.[8] A final consequence of spousal abuse involves the children of a violent home. A man who batters his wife often batters his children. Also, the frustration and rage experienced by a battered woman may lead to child abuse. And most importantly, children who grow up in violent homes are likely to themselves be violent adults.[9] Eighty percent of batterers were abused as children or saw their parents abuse each other.

The incidence of battering in Yolo County appears to reflect national trends. Law enforcement agencies in Yolo County estimate that 40% of all police calls involve domestic disturbances.[10] The Battered Women's Center crisis lines receive 20-30 calls per month. During a six month period in 1979, 128 calls from battered women were received. Through experience with the crisis line, four primary needs have been identified: the need for counseling, the need for shelter, the need for coordinated referral services and the need for accompaniment services to local agencies.

1. Counseling: Calls to the crisis line are received from women who have recently been beaten, from women who have experienced battering in the past, and from friends and relatives of battered women who seek information about the best way to respond. Crisis counseling is provided by volunteer couselors trained to respond to the immediate emotional needs of the battered woman.

   Ongoing supportive counseling is needed to identify long term alternatives and to help the woman return to normal functioning. The long term pattern of victimization experienced by many battered women leaves deep emotional trauma. Mental health professionals are required in these cases to deal with these long term emotional problems. Thus, professional individual counseling and ongoing support groups are needed in Yolo County.

2. Shelter: Approximately 30% of the crisis calls received every month by the Center involve requests for emergency housing. During the six month period March 12-September 12, 1979, 38 referrals to emergency housing were arranged for battered women and their children. The Center has an agreement with shelters in Sacramento, Fairfield and Placerville to place battered women and their children in these shelters when space is available. However, this is a tenuous arrangement and does not consistently meet the needs of Yolo County residents. When these shelters are full, emergency assistance agencies in Yolo County have provided housing. A shelter program specifically designed to meet the emotional and referral needs of battered women is required in Yolo County to successfully address the life reorganization involved in leaving a violent relationship.

3. Referrals: In order to break the cycle of violence, major changes in life style are often required. Battered women may need legal, medical, employment, mental health, and financial support in order to achieve the independence they desire. For example, during the six month period March 12-September 12, 1979, legal referrals, mental health referrals were made through the crisis line. It is important that the referrals are coordinated so that the needs of the battered woman and her children are successfully met.

4. Accompaniment: Accompaniment services provide support for battered women. Lack of knowledge about the court system or social service system may discourage a woman already under stress from pursuing these alternatives. A supportive individual to remain with her through difficult or confusing proceedings can provide encouragement. In addition, court officials or agency workers can be free to attend to the important factual information necessary since the woman has emotional support elsewhere. This service is needed for battered women in Yolo County.

19. ORGANIZATIONAL QUALIFICATIONS

Background Information

In 1976, Donna Moore, Director of the Women's Resource and Research Center of the University of California, developed a proposal for a community based rape counseling program and presented it to the Yolo County Board of Supervisors. The proposal was granted $13,000 in county revenue sharing funds to be administered through Diogenes, Inc., a non-profit youth service organization. The Sexual Assault Center was established as an independent component of Diogenes, Inc. for a period of temporary sponsorship. Accordingly, a Coordinator was hired and an Advisory Board composed of community individuals and professionals was organized. The Center provided counseling to rape victims and their families through a 24-hour crisis line as well as self-defense presentations to the community. The Yolo County Sexual Assault Center, Inc. became a separate non-profit entity on June 30, 1977.

In July 1978, the Yolo County Sexual Assault Center, Inc. began operation under a Law Enforcement Assistance Administration (LEAA) grant. This allowed for the staff to expand to include Project Director, Training Coordinator, Community Liaison and Secretary/Bookkeeper positions.

In February 1978, a conference on battered women was organized by Marilyn Strachan, Director of the Sexual Assault Center; Donna Moore, Director of the University of California Women's Center; and other community professionals. The conference created an awareness of the issue of battering in Yolo County and calls from victims of battering to the Sexual Assault Center crisis lines and to the University Women's Center began increasing. With the particular needs of battered women in mind, a group of community volunteers organized to respond to victims of battering. The Battered Women's Center of Yolo County is an outgrowth of this volunteer network. The Sexual Assault Center Board of Directors voted to adopt the Battered Women's Center as a service component in December 1978. The battered women's service component began operation on March 12, 1979. A Comprehensive Education and Training Act (CETA) grant, awarded to the Sexual Assault Center, Inc., funds four positions which currently staff the Battered Women's Center: Project Coordinator, Community Education and Outreach Worker, Funding Developer and Secretary. Operating expenses are covered by a grant from the Henderson Foundation, "grass-roots" project and donations from the Search-Her directory published by the Battered Women's Center.

Structure of the Organization

As a non-profit organization, the direction and the activities of the Center are governed by the members of the Corporation and by the Board of Directors. The members of the corporation are, according to the by-laws, any person who contributes time, money or goods to the Center and who makes application with the Recording Secretary of the Board of Directors. The Members meet at least once annually to determine the directions and responsibilities of the Center and to elect the Board of Directors.

The Board of Directors is composed of 23 citizens and professional representatives from law enforcement, medical and mental health agencies, secondary schools and colleges, and community persons. (See page 22 for specific membership and organizational affiliation of the Board of Directors.) The Board meets monthly and oversees implementation of projects and activities of the Center.

Experience of the staff of the Sexual Assault Center, Inc. includes: Marilyn Strachan, who has developed and managed the Center for the past three years and is an M.S.W. candidate; Elie Axelroth, who has an M.A. degree is psychology, and has been with the Center since July 1978; Maria Towne, M.S.W., M.F.C.C., who has been with the Center since September 1978; and Rita Deegan, who is working at the undergraduate level in business.

The Battered Women's Center staff includes: The Project Coordinator, Laura Hogan, previously Coordinator of Womankind Health Clinic; Community Education and Outreach Worker, Amy Abramson, previously with North Highland Recreation District; Funding Developer, Jan McAdams, previously volunteer Fund Raising Coordinator for the Unity Church; and a vacant secretarial position. The Organizational Chart on page 24 describes the relationship and structure of these staff positions.

Description of Operations

The staff of the Sexual Assault Center, Inc. direct the operations of the Center from the business office located at 203 F Street in Davis, California. The business office also has a library containing materials on the issues of rape and battering.

Description of Operations

The three crisis telephone lines (758-8400, a Davis exchange; 662-1133, a Woodland exchange; and 371-1907, a West Sacramento exchange) are located at Tadlocks Communications, an answering service in Woodland, California at 26 Main Street. Operators employed by Tadlocks answer the lines on a 24-hour basis and patch incoming calls to the counselor on duty. Counselors work six hour shifts out of their homes. The shifts rotate midnight to 6 a.m., 6 a.m. to noon, noon to 6 p.m., and 6 p.m. to midnight. Tadlocks receives a monthly schedule of counselor's work times. The Center also rents a beeper service from Tad Communications to act as a back-up system to the counselor on call. One of the staff members carries the beeper at all times. In this way, the counselor has immediate access to a staff member to discuss any problems or referrals required by the call. In addition, when two calls are received at the same time, one can be referred to the staff member carrying the beeper.

Experience

In Yolo County, there is no other "help" agency which specializes in counseling and providing supportive services for victims of rape and battering, which presents community education programs on the nature of rape, which gives self-defense classes, or which provides training to professionals who respond to victims of rape and battering (e.g. law enforcement agencies, hospitals, the Probation Department, the Welfare Department, private doctors, and private agencies such as Planned Parenthood and Diogenes).

The Yolo County Sexual Assault Center, Inc. is capable of conducting this program successfully due to its experience and accomplishments in 3 years of operations, due to the experience of the Director and the staff, the qualifications, expertise and broad base representation of the members of its Board of Directors, and due to community links developed by the Center and the Board of Directors. The strong community links with the law enforcement agencies, the District Attorney's office, the hospitals, and social service agencies of this county are evidenced by the letters of support contained in the Appendix, the number of referrals we receive from them, and the fact that we provide training for them.

Activities and accomplishments from September 1976 to present:

a. Forty to fifty counselors are maintained to staff the crisis lines. These counselors are trained to handle counseling for rape or battering victims. Four of the counselors are bilingual Spanish and English. Four of the counselors are men.

b. Brochures are being distributed throughout the county. Brochures are titled as follows: "Rape is Always Someone Else's Problem"; "Rape Prevention: Thinking Ahead"; "For Victims of Sexual Assault: A Guide"; "Para Victimas de Asalto Sexual: Un Guia" and a bilingual brochure "Battered Women".

c. The nineteen radio stations in the area regularly carry our public service announcements. The three major television stations carry our public service announcements and cover our community education programs as news items. Members of the staff have appeared on four major television stations in talk show discussions of the issues of battering and rape.

d. Major articles on the Center have appeared in the following newspapers: Daily Democrat, Davis Enterprise, The Cal Aggie, the Argus, Woodland High School's "Orangepeel", Davis High School's "The Hub", the East Yolo Record, the East Yolo News Ledger, the Sacramento Bee, and the Sacramento Union.

e. Forty-eight community education programs have been given in 1978 with a total of 2,176 persons in attendance and 75 self-defense classes with 2,482 in attendance. This is a total of 123 programs with a total attendance of 4,658.

f. Professional training has been provided for all five law enforcement agencies in Yolo County, hospital nurses in all four hospitals, the Probation Department, Department of Social Services, Health Department, public health nurses, medical students, and the District Attorney's Office.

g. Staff members have testified in legislative hearings on SB 500, SB 900, and SB 961. The Center maintains current information on all legislation concerning rape and domestic violence.

The above described activities and efforts have been accomplished by the Executive Director, Program Administrator,

Sexual Assault Center Project Coordinator, Sexual Assault Center Secretary/Bookkeeper, Battered Women's Center Project Coordinator, Funding Developer, Community Education and Outreach Worker, and Secretary. An active Board of Directors donate 5 hours per month, and 40-50 volunteers donate 24 hours per month on the crisis line, 5 hours per month in meetings, and 1.5 hours per month doing follow-up counseling.

B. Participation Selection:

Women and their dependents who have been victims of domestic violence will be housed by the Sexual Assault Center Shelter. Priority will be given to Yolo County residents. When space allows, short-term housing will be available to women and their dependents residing outside of Yolo County.

C. Major Tasks

1. To locate a shelter facility in the rural areas of Woodland or Winters.

   Strategy: Shelter coordinator will call real estate rental agencies to develop list of potential facilities.

2. To lease a shelter facility in the rural area of Woodland or Winters.

   Strategy: Shelter Coordinator will apply for necessary licenses, permits, insurance, and telephone system. Final approval of shelter location will be given by Executive Director.

3. To furnish the shelter facility.

   Strategy: A volunteer donation team under the direction of the Shelter Coordinator will develop a comprehensive list of furnishings, including food and clothing for residents.

   Strategy: The donation team will enact a plan for collecting donations which will include preparing newspaper articles, flyers, and letters to service organizations.

---

* A diagram visualizing the flow of service to clients appears on page 29.

4. To recruit qualified shelter personnel.

   Strategy: The Sexual Assault Center will advertise the shelter positions by announcing the availability in the newspapers, monthly counselor newsletters, and letters to California shelters.

5. To train shelter personnel to provide described services.

   Strategy: The training of the staff will be a comprehensive multi-level program as described on pages 33 and 34.

6. To provide individual counseling to the adult victims residing in the shelter.

   Strategy: A shelter service counselor will initially interview client and assess her immediate needs.

   Strategy: Shelter counselor will provide the client with guidance in the preparation of the client's plan of action. All available alternatives will be evaluated at this time.

7. To provide group counseling to the adult victims residing in the shelter.

   Strategy: A professional counselor from the community will be hired and scheduled to conduct two hour group counseling sessions at the shelter twice a week.

   Strategy: All clients will be required as per shelter policy to attend a minimum of one group counseling session during residence in shelter.

8. To provide a comprehensive referral program to the shelter residents.

   Strategy: The staff will be introduced to all referral agencies as outlined in the description of staff training, and listed on page 35.

E. The members of the Board of Directors representing law enforcement, medical, mental health and social service agenices provide strong community resources. In addition, the Center has established close working relationships with other agencies in Yolo County where referrals are appropriate. These include the Department of Social Services, Lawyer's Referral Service, UCD Marital Legal Clinic, Project Move (employment services), and the Economic Opportunity Commission.

F. Letters from supporting agencies can be found in the Appendix. Referrals are made to the Center from law enforcement, social services, metnal health agencies and the hospitals. The Center in turn refers clients to those agenices for services. In addition, the Center provides training to law enforcement officers, emergency room personnel, and social service workers, to enable them to respond in a sensitive way to victims of battering.

G. There is no duplication or similar service in Yolo County.

H. STAFF TRAINING

The shelter staff will be trained as to the appropriate methods of counseling and developing plans of action with each resident client. The training will involve three levels:

1) Community Level: Staff will be given an introduction to and a discussion with a representative from every agency that is a potential referral for the resident clients. This approach provides the staff with valuable criteria including client qualifications, if any; the expertise and limitations of the agency; and the names and responsibilities of contact persons. A list of these agencies is provided on page 35.

2) Experiential Level: Each member of the shelter staff will spend two working days at the WEAVE Shelter in Sacramento, discussing counseling techniques and observing the operation of a shelter. The Weave Shelter has agreed to this training and wishes no compensation.

3) Operational Level: The shelter staff will attend the 20 hour Sexual Assault Center/Battered Women's Center volunteer-counselor training. Shelter staff will be given a general orientation on the goals of the Center and an introduction to other staff persons, volunteers, and the Board of Directors. Re: Battered Women's Center of Yolo County and Need For Battered Women's Shelter

Gentlemen:

During the calendar year 1979 I have been assigned to preside over the Family Law Department of the Yolo County Superior Court. Additionally, I have almost weekly criminal case assignments inclusive of the felonies of rape and other physical violence to women here in Yolo County.

The funding request for a proposed Battered Women's Shelter here in Yolo County has my unequivocal support. I solicit your serious consideration for that funding and implementation of the request as soon as possible.

The court is cognizable of the great need for an actual physical shelter here in Yolo County inasmuch as many of the victims of violence have no physical place to turn at late and unusual hours of the day and night and at other times of crisis. It is with regret that I advise you that physical violence to women is a constant and growing threat in our midst here in Yolo County. Without detailing the statistics, I advise that the need sought to be filled by the proposed Battered Women's Shelter is immediate, critical, and of unquestioned validity in my considered opinion.

I believe you are aware that the proposal includes supportive counselling, individual planning sessions, and accompaniment services and referrals to local agencies by shelter staff. It is also contemplated that the assistance will be comprehensive providing women victims with viable alternatives to returning to the violent relationship and also with coping with both physical and psychological insults to personhood which are the inevitable product of physical attack and violent relationship in the

multiplicity of contexts as suffered by women victims.

It has been my experience in family court that many victims have no place to turn, or are unaware of the community facilities, and they need both consultation and psychological support as victims of physical violence and often deep damage to psyche as a result thereof.

The reality of a Battered Women's Shelter in Yolo County would be of assistance to both the family court, the juvenile court, and the criminal court in the area of probation and rehabilitation.

If I may assist further in any way please let me know.

Very truly yours,

HARRY A. ACKLEY
Judge of the Superior Court

Dear Ms. Hogan:

The purpose of this letter is to indicate that I support your organization in its effort to obtain grant funding for the operation of a battered women's shelter.

I think we all have come to realize that this particular type of violence is more widespread than it was thought to be; that the victims have not reported incidents because of their concern for the future of the family they are striving to hold together, as well as their concern for their own physical well being and that of their children.

To have a place of safety where they may obtain support would certainly be consoling to individuals experiencing such physical and emotional abuse.

This department has enjoyed a fine relationship with the Yolo County Sexual Assault Center of which your organization is a component. I am confident we will all continue to profit in working together harmoniously for the welfare of those in our community who must depend on us for the services we can provide.

Dear Sir,

This letter is written as an endorsement of an application filed by the Yolo County Sexual Assault Center, Inc. Their proposal to establish a "battered women's shelter" in Yolo County has great merit. A temporary neutral location for women, who have been abused, will provide a desired compliment to the Police Officer's training in family crisis intervention.

Our Department has worked closely with the Yolo County Sexual Assault Center for several years. We have found the staff and administration to be very competent and capable. The assistance they have provided to our Department has been invaluable.

Dear Sir:

This is to testify to the good relationship between the Sheriff's Department and the Yolo County Sexual Assault Center. This Department has supported the Sexual Assault Center since its inception.

The Sheriff's Department personnel, have been and are currently involved with the Board of Directors of the Center, helping to meet the needs of the Community.

The Sexual Assault Center and the Battered Womens Shelter provides a much needed alternative to assist victims of crime. Having emergency housing services available to battered women, would greatly assist Yolo County Law Enforcement Agencies.

Subject: Battered Women's Center of Yolo County --
Need for Battered Women's Shelter

To Whom it may concern:

It is my pleasure to write a letter of recommendation in support of this agency's efforts to apply for Shelter Grant funds. This office, as the Prime Sponsor staff for the administration of Comprehensive Employment and Training Act (CETA) program in Yolo County, has had a working relationship with this agency involving several specific contracts.

Our office has had good experience subcontracting funds and placing CETA public service employees with this agency for training. Under the general emphasis of our program approach, we give special consideration to three general areas: the administrative capability of the agency to handle funds granted, the ability to provide useful training to the participant, and the potential of the position to provide needed public services to the community. In all three of these areas, this agency has successfully and admirably performed.

We have invited this agency to continue to request positions from the Manpower Office, which we will review as funds become available.

If I may be of any further assistence, please do not hesitate to contact me.

Negative Declaration
Zone File #2994
Giro and Mary Snow, Applicant-owner
Assessor's Parcel No. 46-240-19
HEARING DATE: March 21, 1979

This proposal is to separate an existing 1.835 acre parcel, with two homes, into two parcels with a home on each. The site is located between Antioch Avenue and Partridge Road in Southport within the Agricultural General (A-1) Zone. It is designated on the General Plan for eventual development as Residential Suburban.

Preliminary review of the proposal by responsible agencies resulted in a determination by staff that the project is adequately covered environmentally with a negative declaration.

Facts which influenced this determination were:

1. Both houses are currently there.
2. No increase in services of facilities will result.
3. The area is proposed for eventual development into 1/2 acre or larger homesites.
4. Both parcels front on County Roads.

WHEREAS, The LEAA program has been in existence for over ten years, and

WHEREAS, California has developed the regional delivery system, and

WHEREAS, most cities and most counties have participated and have benefited from the regional system, and

WHEREAS, the new LEAA legislation provides for "Entitlement Jurisdictions" so that funding can be accomplished with less red tape, and

WHEREAS, the new legislation effectively reduces the authority of the state to intervene in local criminal justice activities, and

WHEREAS, entitlement jurisdictions consist of:

3. Counties over 250,000 population; and

WHEREAS, over four hundred other jurisdictions are dependent upon the state for LEAA funding unless they join together, and

WHEREAS, fragmentation of the criminal justice system must be avoided, and

WHEREAS, the joining of individual cities and counties together in entitlement jurisdictions will enhance local control and maximize the use of LEAA funds, and

WHEREAS, the joining together of cities and counties into entitlement jurisdictions will make the combinations equal to the state but not autonomous.

NOW, THEREFORE, BE IT RESOLVED THAT the County of Yolo does endorse the concept of cities and counties joining together and creating an entitlement jurisdiction, and

BE IT FURTHER RESOLVED that County of Yolo urges the California League of Cities (or the County Supervisors Association of California) to adopt a resolution encouraging the continued development of entitlement jurisdictions, and,

(Resolution Correcting Boundaries of Agricultural Preserve and Adopting Agreement Correcting and Amending Land Use Contract)

WHEREAS, this Board of Supervisors heretofore has adopted County Resolution No. 70-6, a Resolution Enlarging an Agricultural Preserve so as to include territory including that described as follows:

> The E½ of the SW¼ of Section 17, and the NW¼ of Section 20, T11N, R2E, M.D.B.&M., excepting therefrom the westerly 250 feet of the north 450 feet of Section 20, T11N, R2E, M.D.B.&M.

WHEREAS, pursuant to Resolution Nos. 70-6 and 70-7, the County of Yolo and Frank Dettling, Steve Dettling, and Ed Dettling, entered into a land use contract, Agreement No. 70-35, whereby the parties agreed that the subject property was to be bound by the terms and conditions set forth in said Resolution Nos. 70-6 and that the subject property shall not be used for any purpose other than agricultural use, and those uses determined to be compatible with the agricultural use of land within the preserve and subject to contract. Said contract was recorded in the Office of the Recorder of the County of Yolo on February 2, 1970, in Book 934 of Official Records at Page 482, Yolo County Records; and

WHEREAS, Margaret H. Dettling, Trustee, has become successor in interest to Ed Dettling; and

WHEREAS, the Dettlings have caused to be recorded Parcel Map No. 2892 in Parcel Map Book 5 at Page 1, which parcel map contains Parcel 1, so as to set forth the parcel of property containing the rice dryer and which the parties originally intended to be excluded from the land use contract and agricultural preserve; and

WHEREAS, this Board of Supervisors desires to amend the Resolution Nos. 70-6 and 70-7 and to amend the provisions of said land use contract so as to set forth the proper intended description of the parcel of property to be bound thereby, and to acknowledge that Margaret H. NEGATIVE DECLARATION
OF ENVIRONMENTAL SIGNIFICANCE

79-77

The Yolo County Planning Commission has reviewed all available information on the environmental effect of the project described as

request to redistribute land within the Agricultural Preserve (A-P) Zone between two members of a family, located on the north side of County Road 32A at the junction with County Road 88, north of Winters.

File YC-101-10-3-79 Assessor's Parcel No. 30-180-07 and 30-210-01.

The Planning Commission has determined that:

1. The project described is one that would ordinarily be expected to have a significant effect on the environment, and

2. The project will have no significant adverse effect on the environment due to circumstances peculiar to the specific project.

An Environmental Impact Report will not be required.

Said determination was made at a Public Hearing held on October 3, 1979 in compliance with the California Environmental Quality Act and Title 10 of the Yolo County Code. Tentative Parcel Map #2933
Applicant-Owners-Graf & Thomas
Assessor's Parcel Nos. 30-180-07 & 30-210-01

On October 18, 1978, the Yolo County Planning Commission granted the City of Winters a use permit to allow the construction and operation of holding ponds for sewage effluent on an approximate 200 acre parcel located on the north side of County Road 32A at the junction with County Road 88 in the Agricultural-Preserve (A-P) Zone. The City of Winters, was also granted permission to separate 200 acres of land from 320 acres in the AP Zone for the construction of the ponds. A previous E.I.R. covered the impacts associated with the project so no environmental assessment is necessary for that project.

Now, the owners of the property, (Graf & Thomas) are requesting a Tentative Parcel Map to create four parcels from their existing two parcels: Parcel 4, a 197.5 acre parcel, is where the effluent ponds will be located. Mr. Graf will retain Parcel 1 and is transfering Parcel 2 to his sister, Mrs. Thomas. Mrs. Thomas will retain Parcel Number 3, therefore, the applicant is also requesting permission to split land in the Agricultural-Preserve Zone.

Due to the responses received from the various responsible agencies, plus for the following reasons, staff determined a Negative Declaration is the appropriate environmental assessment for the transfer of 30 acre parcel and other land divisions:

1) The 30 acre parcel, being transferred to Mrs. Thomas, will be retained in the Agricultural-Preserve Zone and will be used for agricultural purposes;

2) The environmental impacts associated with the holding ponds has already been addressed by Winters E.I.R.

RESOLUTION NO. 79-186

(Resolution Superseding Resolutions No. 62-153, 62-166, 73-156, and 74-85, and Adopting Revised General Assistance Grant and Eligibility Standards)

WHEREAS, Division 9, Part 5, commencing with Section 17000 of the Welfare & Institutions Code of the State of California provides that the Board of Supervisors of each county shall adopt standards of aid and care for the indigent and dependent poor of the County; and

WHEREAS, on August 13, 1979, the Director of the Yolo County Department of Social Services presented to this Board a study of the General Assistance program in Yolo County, which study concluded that the grant amounts, additional discretionary allowances, and eligibility procedures set forth in this resolution provide support for the indigent and dependent poor of the County of Yolo at a reasonable, humane, and appropriate level, not less than the legal minimums mandated by law, and not necessarily limited to legal minimums; and

WHEREAS, this Board has considered said study and finds it is based upon a methodology realistically considering the needs and requirements of actual General Assistance recipients living in Yolo County; it does not consider the bonus value of food stamps in making recommendations as to grant levels; and it reviewed and made recommendations regarding the levels of benefits necessary to support and maintain the poor and indigent within the following categories of need: housing, food, clothing, household operations, personal needs, medical and dental care not otherwise provided at public expense, transportation, and special needs for certain recipients having unusual physical or medical needs; and further, said study reviewed and made recommendations regarding the appropriateness of the voucher system, arrearage in rent system, meal ticket system, work search requirements, and absence of "aid paid pending"; and

WHEREAS, this Board, in the exercise of the legislative discretion conferred upon it by Welfare & Institutions Code Section 17000 and consistent with State law, finds and determines that the grant amounts, discretionary additional grant allowances, and eligibility procedures set forth herein are reasonable, humane, and in compliance with State law, but not limited to State minimums, and are in the best interest of the citizens of the County of Yolo;

NOW, THEREFORE, BE IT RESOLVED as follows:

1. All the above findings are true and correct.

2. The Board of Supervisors of the County of Yolo, State of California, hereby adopts the following standards of aid and care for the indigent and dependent poor of the County of Yolo pursuant to and in compliance with Welfare & Institutions Code 17000:

GENERAL ASSISTANCE STANDARDS

I. STATEMENT OF POLICY

It is the policy of the Yolo County Board of Supervisors that this program shall be administered by the Department of Social Services to assure that:

1. Each individual requesting assistance be treated in such a manner as to preserve or develop his dignity and self respect regardless of race, color, creed, political affiliation, or past history;
2. He is assured of equitable treatment under the policies hereinafter to be enacted;
3. Only those persons meeting the eligibility requirements herein receive assistance;
4. Each applicant and/or recipient be encouraged to rehabilitate themselves to their maximum potential;

5. Job search be required as a condition for receiving assistance where such job search is considered feasible by the Department of Social Services and provisions for this requirement are provided by the Board of Supervisors.

II. ELIGIBILITY STANDARDS

A. RESIDENCE: Residence in the County of Yolo is necessary to establish eligibility in addition to other eligibility standards as herein provided. Emergency relief may be given to non-residents if the Director of the Department of Social Services deems necessary. Non-residents may be provided food, housing and utilities pending return to legal residence.

B. EMPLOYABILITY:

1. General Assistance may be granted at any time of the year to any individual or family in need thereof by reason of illness, incapacity or unemployment.

2. Exceptions: General Assistance may not be granted to any individual or family capable of employment who:

a) voluntarily terminates gainful employment within thirty (30) days prior to the application for General Assistance;

b) refuses to diligently seek and/or accept gainful employment offered him;

c) refuses to apply and fully cooperate with the Department of Employment Development;

d) fails to present verification of seeking work.

C. REAL PROPERTY: No person may receive General Assistance who owns real property in excess of $5,000. In determining the net valuation all encumbrances of record are to be deducted.

To be eligible, persons owning real property other than a home in which they live shall utilize this property by either adequate rental commensurate with similar rentals, or by sale if considered feasible by the Department of Social Services.

D. PERSONAL PROPERTY: No person or family may receive General Assistance who owns personal property in excess of $50. One automobile of a market value not to exceed $1,500 may also be retained when the Social Services Department determines such automobile is necessary for employment and/or rehabilitation.

E. INCOME: All sources of reported, suspected or potential income must be deducted from budgetary needs in determining the amount of assistance. This section shall apply to income in kind as well as monetary renumeration and regardless of the source of such income.

F. TRANSIENTS: General Assistance shall not be granted for persons known to be "transients". Assistance may be granted to stranded families, and in such instances, the Department of Social Services Director shall take necessary action to return the family to place of legal residence without delay.

G. REFUSAL TO COOPERATE: Applicants for/or recipients of General Assistance who fail to cooperate in any manner with an employee of the Department of Social Services shall be ineligible for such aid.

H. MEDICAL CARE: All indigent medical care is to be secured at the Yolo General Hospital in accordance with standards of admission for inpatient or outpatient care. Optometric examinations and/or glasses may be provided upon written referral of a county physician and approval of the Social

Services Director provided that other resources cannot provide such needs. Other special needs may be provided subject to approval by the Board of Supervisors.

III. STANDARDS OF AID AND CARE:

A. FOOD BUDGET: A food budget shall be computed for each applicant and/or recipient of General Assistance based upon a monthly rate of $56 per person. The maximum amount per family shall not exceed $56 per individual.

B. RESTAURANT MEALS: Instead of the foregoing food allowance or allowance for board, an allowance of $4.00 per day per person for restaurant meals may be made at the discretion of the Director of Social Services.

C. ROOM AND BOARD: Room and board for single persons may be allowed in lieu of separate allowances for food, housing and utilities, not to exceed $100 per month.

D. HOUSING AND UTILITIES: The General Assistance allowance for rent or house payment (including principal and interest), taxes, insurance and upkeep, excluding utilities, shall not exceed $150.00 based upon the following:

1. Individual: $100.00 per month.
2. Family of two: $110.00 per month.
3. Family of three: $120.00 per month.
4. Family of four: $140.00 per month.

A separate utility allowance shall be provided to General Assistance recipients whose utilities are not included in the basic rent allowance. Utility allowance is to be paid; however, not to exceed $10.00 per month. This applies to all situations whether they are single individuals or a family unit.

E. CLOTHING ALLOWANCE: Essential clothing needs may be provided through General Assistance not to exceed $25.00. That essential clothing shall be provided after a social service referral and if the results of such referral indicate that no donated clothing or other resources are available.

F. PERSONAL AND INCIDENTAL ITEMS: An allowance of $4.00 monthly shall be provided to all General Assistance recipients upon determination of eligibility.

G. TRANSPORTATION: A transportation allowance of $4.00 will be provided to General Assistance recipients upon determination of eligibility, or to return applicant to legal residence or bonafide employment, or for rehabilitation, self-support or county work relief programs.

H. MISCELLANEOUS EMERGENCIES AND NEEDS: Notwithstanding the foregoing provisions, aid may be granted to an otherwise eligible applicant or assistance household and aid may be granted in excess of amounts established in this resolution when, in the opinion of the Social Services Director, the circumstances of an applicant or general assistance household constitute an emergency requiring assistance by the county to protect the life, health or welfare of those applicants or assistance household. Any assistance granted under this section shall be on a temporary basis only and shall continue only so long as the emergency exists.

I. CERTIFICATION PERIOD: Each applicant for General Assistance shall be certified as eligible for a period not to exceed one (1) month. Eligibility for General Assistance shall continue upon receipt of a monthly income/status report

provided by the recipient, and recertification by the eligibility worker.

An applicant who intends to apply for recertification of eligibility in the next succeeding month shall apply no later than ten (10) days prior to the first day of the next succeeding month. Applications shall be deemed complete upon delivery by the applicant to the Department of the income/status report.

If the income/status report or other facts indicate a change in circumstances so that the applicant is no longer eligible, the applicant shall be notified in writing of the intent to terminate aid. Said notification shall be deemed complete upon deposit in the United States mail, postage prepaid, of a notification of termination. If, within five (5) days after notification of termination, the applicant requests, in writing, a fair hearing, said fair hearing shall be commenced no later than five (5) days after receipt by the Department of the request for fair hearing. Fair hearings may be continued from time to time. Aid shall be paid pending the results of the fair hearing. The decision resulting from the fair hearing shall be effective on the date of the decision, or on the date set forth in the decision, whichever is applicable.

Failure by an applicant to file a written request for a fair hearing on a Notice of Intention to Terminate Aid within five (5) days after mailing of said notice shall be deemed a waiver of the right to said hearing, and aid shall be terminated on the last day of the current month. Such waiver

shall be without prejudice to the applicant's right to reapply for certification and/or to present good cause that said waiver should be set aside.

J. FAIR HEARINGS: An applicant/recipient of General Assistance shall be entitled to a written "Notice of Intended Action and Right to Request a Fair Hearing". Such notice will be given at least five (5) days in advance of the proposed action and will include: description of proposed action, effective date, right to a conference and/or right to request a fair hearing, and in the case of an adverse action, the right to have aid continued pending a final decision in the fair hearing by the Director of Social Services. It shall also include notice of right to representation, including legal assistance through the local Legal Aid Society, when available. Request for a fair hearing must be made within ninety (90) days of the date the notice is mailed or delivered if made in person; and, within five (5) days of such date if aid is to be paid pending a final decision. The fair hearing officer shall be furnished by the office of the County Counsel.

IV. GENERAL STATEMENT:

A. Aid Payments: General Assistance may be paid either in kind or by warrants drawn upon the County Treasurer.

B. Procedures: Procedures to implement these policies shall be developed in a written manual formulated by the Department of Social Services. Said manual shall be consistent with this resolution, and shall embody such procedures so as to insure to applicants and/or recipients of General Assistance all rights to which they are entitled pursuant to the Constitution or laws

of the United States or the State of California.

C. Annual Review: There shall be an annual review of these assistance standards as set forth herein.

WHEREAS, RUTH MAY, a loyal and long-time children's story-teller and bell ringer at the Davis Branch of the Yolo County Library, has retired!

NEGATIVE DECLARATION
ENVIRONMENTAL SIGNIFICANCE
No 77-66

The Yolo County Planning Commission has reviewed all available information on the environmental effect of the project described as request for use permit to separate a 6.650 acre parcel from an existing 24.904 acre parcel for the storage of construction aggregate located on the south side of County Road 20, approximately 9/10 of a mile west of County Road 96, in the Agricultural General (A-1) Zone. Assessor's Parcel No. 25-120-14.
Zone File #2707

The Planning Commission has determined that:

1. The project described is one that would ordinarily be expected to have a significant effect on the environment, and

2. The project will have no significant adverse effect on the environment due to circumstances peculiar to the specific project.

An Environmental Impact Report will not be required.

Said determination was made at a Public Hearing held on 8-3-77 in compliance with the California Environmental Quality Act and Title 10 of the Yolo County Code. Appeals from this determination may be made within fifteen (15) days of said action by filing a letter of appeal with the Clerk of the Board of Supervisors as prescribed for appeals from decisions of the Board of Zoning Adjustment.

Negative Declaration
Zone File #2707 & Tent. PM #2706
Department of Public Works
with Teichert Aggregates
Assessor's Parcel No. 25-120-14
HEARING DATE: July 6, 1977

The Yolo County Public Works Department requests a use permit and a Tentative Parcel Map to create a 6.650 acre parcel from an existing 24.904 acre parcel located on the south side of County Road 20, approximately 9/10 of a mile west of County Road 96, in the Agricultural-General (A-1) Zone. The applicant proposes to use the 6.650 acre parcel, which is currently being used by A. Teichert & Sons, for storage of construction aggregate. The Yolo County Public Works Department will acquire the 6.650 acre parcel by trading a 6.650 acre parcel lying westerly of the subject site, which Teichert says will eventually revert back to agricultural usage.

Existing land uses on the parcel are an aggregate concrete plant and two buildings and a propane gas tank. The proposed uses are storage of aggregate material, which already exists at the proposed site and 60' access easement. The hours of operation at the proposed site (6.650 acres)for storage of construction aggregate will be from 7:00 to 3:30. The number of employees will be four.

Project impacts: There will be four employee vehicles at an average per day, and 0-80 customers on service vehicles at an average per day; and heavy equipment and trucks are currently operating on the site.

Although this project might normally have significance, due to the information provided by the applicant, the staff determined a Negative Declaration was appropriate for the following reasons:

1) There will be no change in the environment as the site is presently being used by A. Teichert & Sons for the storage of construction aggregate;

2) The present noise level will be similar to the future noise level because there will not be any significant increase of operating vehicles; and

3) No biological damage will result from storage of aggregate material.

Dear Mr. Capik:

The Yolo County Community Development Agency has reviewed the draft feasibility report and environmental impact report for the Sacramento River Deep Water Ship Channel investigation. The following specific comments are provided to you as a result of this review:

1. Appendix 1 - D-17. The statement indicates that no industrialization is anticipated on the east side of the channel below channel mile 37. This statement should note that in Yolo County, no industrialization is anticipated on the west side south of the existing industrial zoned property.

2. The selected disposal sites appear appropriate. The expanded disposal sites as depicted in Plate D-5 which were not selected pose significant impacts due to disposal of sediment on prime farm lands. The EIS should discuss in more detail the change of use for those lands from agricultural use to use as disposal sites. For those sites not used as a recreational site or a wetland habitit area, what will be their new use?

3. Appendix 3, 3-20
The statement included in the paragraph on land use (4.17) which reads "There's 2000 acres in the upper channel area (south side) zoned for future industrial use," is incorrect. It should read that there are approximately 2000 acres south of the Port which are currently zoned Agricultural General (A-1) and are designated on the East Yolo General Plan for Agricultural-1st Phase/Industrial-2nd Phase.

Generally, the feasibility report and the draft environmental impact statement adequately responds to these issues which would directly affect Yolo County. We appreciate the opportunity to review the document and if any further information is needed from Yolo County, please do not hesitate to ask.
